

Buffalo Inner Harbor Canalside Project

Erie Canal Harbor Development Corp.
Buffalo, New York

Services Provided Surveying & Mapping

Foit-Albert Associates provided a comprehensive Boundary and Topographic Survey of the 20 plus acre Canal Side project located in Buffalo's historic Inner Harbor. Foit-Albert Associates provided extensive records research to re-establish historic property lines and road right-of-way's dating back to the 1800's. In addition, Foit-Albert Associates was requested to establish the right-of-way, easements and tunnels of the CSX/Amtrac railroad, along with determining the right-of-way and easement rights of the overhead portions of the NYSDOT Skyway overpass and the NYSTA 190 overpass.

The scope of services provided included establishment of horizontal and vertical control, topographic survey and mapping and boundary survey and mapping.
